

2016

*For tour bus operation—inspection of these items required by 34505 CVC

Carrier's name	Year	Make	#3											
5B Trooley														
1. Fire extinguishers, warning reflectors, first aid kit	MILEAGE	JAN	FEB	MARCH	APRIL	MAY	JUNE	JULY	AUG	SEP	OCT	NOV	DEC	
2. Instruments, secure seats, clean interior, driver's seat and belt	OK	DEF	OK	DEF	OK	DEF	OK	DEF	OK	DEF	OK	DEF	OK	DEF
3. Windshield, wipers, windows, mirrors, floor condition														
4. Lights, interior, exterior, signals, warning, switches and wiring														
5. Warning devices—horn, oil, temperature, lift, door(s)														
6. Switches and wiring heaters, defrosters, cooling and vent systems														
7. Door operations, sensitive edges, timing, padding, handrails, safety panels														
8. Exterior condition, paint, identification														
9. Generator/Alternator, starter, brushes, wiring—mounting														
10. Batteries, fluid, terminals, cables														
11. Radiator, hoses, water pump—securement, leaks														
12. Compressor(s) fan, waterpump, acc.—belts—condition and adjustment														
13. Clutch adjustments—freelap														
14. Throttle, linkage, fuel system leaks, air cleaner														
15. Manifolds, gaskets—securement, leaks														
16. Engine mounts, oil leaks														
17. Fluid level, leaks, hoses and tubing—secured, prot.														
18. Air governor adjustment—minimum 85, maximum 130														
19. Air leaks, unapplied, 1 minute 3 pounds maximum														
20. Air leaks, applied, 1 minute 3 pounds maximum														
21. Drain number 1 air reservoir—test check valve—low air warning operates														
22. Check all tank securement, drains operable, drain tanks														
23. Vac. loss—3" per min., 15" minimum vac.—low vac. warning—tanks secure.														
24. Adjustment. Lining and drums (when visible) pedal height on hyd.														
25. Parking brake—condition and adjustment														
26. Emergency stop system, labeled, operable—														
27. Releases after loss of service air. Anti skid if equipped														
28. Wheels, tire, lug nuts—cracks, secured—tread—inflation														
29. Wheel seal—hyd. brake cyls.—leaks, axles, flanges, studs														
30. Check steering gear and mounting—free lash, oil level														
31. Steering arms, drag links, tie rod ends														
32. Frame, crossmembers, secure, wear, cracks														
33. Springs, shackles, "U" bolts, king pins, shock absorbers														
34. Trans., diff., fluid level, seals, mounting, drive shaft, "U" joints, guard.														
35. Exhaust—condition, leaks, mounting														
36. Fuel tanks, lines, pumps—condition, mounts, leaks														
37. Body underside and firewall, airtight and clean
